GEORGE F. BLOOD,	Term Expires March, 1934
HENRY O. SMITH,	Term Expires March, 1935

HALGA H. DURIVAGE, Librarian

Hills Memorial Library

We once more gratefully acknowledge the gift to the library, by several of its friends, of a number of books and magazines. To Mrs. A. K. Hills, the thanks of the young people are especially due, as she has contributed subscriptions to St. Nicholas, Boys' Life, American Girl, Nature and John Martin's Book.

The trustees, from the income of the Dr. A. K. Hills fund, have furnished the Atlantic Monthly, Review of Reviews, Popular Science, Collier's, Scribner's, American Magazine, Country Gentleman, Good Housekeeping, Ladies' Home Journal, American Boy, Child Life and several other periodicals.

Worthy of note is the fact that the record of the organization of the first church in town and of its meetings for the early years of its existence, in the hand writing of the first settled minister, Rev. Nathaniel Merrill, is being copied by Miss Natalie Merrill, the copy to be placed in the library.

This record, for many years supposed to have been destroyed, was fortunately found in the attic of an old house.

Of particular value are the records of the early baptisms and marriages, kept by Mr. Merrill in connection with the church records.

It has been necessary to make extensive repairs to the roof and heating plant of the building the cost being met from the town appropriation.

GEORGE F. BLOOD,
HENRY O. SMITH,

Report of School Board

To the Citizens of Hudson:

Your School Board in submitting this Report of the past year and the Budget for 1933-1934 have endeavored to keep in mind the present conditions of the country·

The City of Nashua in increasing the Tuition of High School Pupils to $125.00 per year and the larger number of pupils have made our tuition payments about $14,000.00. We have just been notified that this will be cut to $110.00 per pupil for next year. There are only thirteen pupils in the senior class to graduate this year and we expect about fifty pupils in the entering class next fall. So that if all attend that have expressed their intention of entering the 9th Grade we will have about 150 pupils attending High Schools or Academies for whom the district will be liable.

This large number caused us to make a very thorough study of conditions. We find that there have been many changes in the 9th Grade work and that by making certain minor changes in the building that the 9th Grade can be taken care of at the Webster building and a substantial saving in costs can be made. Superintendent's report will give more detail of this plan.

Substantial savings have been made in transportation costs, and the mild winter has helped in the amount of fuel and janitor service.

The per pupil cost for the last year was $60.40 against $61.62 the year before. The Hudson cost is the 11th lowest in the State out of about 250 districts reporting.

We submit the following budget for your consideration for 1933-1934:

School Board's Estimate for 1933-1934

For the Budget Committee,
GRANT JASPER, Chairman

REPORT OF SUPERINTENDENT OF SCHOOLS

Hundson, N. H., February 1, 1933.

To the School Board and Citizens of the Town of Hudson:

The following is my third annual report as Superintendent of your schools.

Enrollment January 4, 1933

Grade	1	2	3	4	5	6	7	8	Total
Webster Building	42	40	40	43	43	39	60	52	359
Portable		14	23						37
I. O. O. F.					18	15			33
Hudson Center	11	8	13	11	13	12			68
No. 1	6	2	4	4	3	4			23
	59	64	80	58	77	70	60	52	520

The enrollment in Webster School during the last two years has shown a marked decrease in the number of pupils starting in Grade I, but at the same time there has been an increase in the number of pupils in the upper grades.

Two years ago, there were 72 pupils enrolled in Grade I, last year there were 54 pupils enrolled in Grade I, and this year there are but 42 with a prospect of less than 35 for next year.

Where it was necessary to have an over-flow for the first and second grades two years ago, it is going to be possible next year to handle each grade in a single room.

However, it is still necessary to have a separate room for the surplus over 40, of the pupils in grades 3—4—and 6.

First Year High School in Hudson

Partially because of an increase in the cost of tuition in Nashua High School and partially because of the convenience to pupils living in Hudson and attending the 9th grade, in co-operation with the School Board, we have figured out a plan whereby the 9th grade can be conducted in the present Webster School Building.

This plan, if put into operation, would call for a full day at school for those pupils in grade 9. We feel this will add to their educational facilities two or three study periods each day, during which time they can complete a large part of their daily assignments.

Another advantage would be the convenience of attending school at the Webster Building, instead of the long walk to Nashua High School.

All of the courses which are given to the first year High School, or grade 9, at Nashua High School, will be given in the 9th grade at the Webster School.

After successfully completing 9th grade in Hudson, pupils will be admitted in good standing in their regular courses at Nashua High School.

At the present time there are 50 pupils from Hudson attending the 9th grade in Nashua.

According to available figures, there will be between 50 and 60 pupils in Hudson to attend the 9th grade next year.

If the 9th grade is established in Hudson, and there are 50 pupils, the net saving to the town will be between $1,700 and $2,000. If there are 60 pupils in the 9th grade, the net saving will be between $2,700 and $3,000.

I feel that the same efficient instruction can, and will be given in the 9th grade which we are now giving in the 7th and 8th, and which has enabled the pupils who graduated from the Webster School, to make such good records in Nashua High School.

Should Nashua decide in the near future to operate on the 6--3--3 plan as voted two years ago and postponed because of the depression, then, with the 9th grade in Hudson, our organization would be on the same basis as that of Nashua. Pupils from Hudson would enter the 10th grade in Nashua, on the same basis as the pupils from the Junior High in Nashua would enter the Senior High.

There were no changes in the teaching staff at the Webster School at the beginning of the fall term in September. The enrollment in grades seven and eight this year was larger than in previous years. After operating for two weeks with 54 pupils in some classes and 62 in other classes it was decided to employ a part time teacher to permit the dividing of these larger classes. Miss Virginia Dunlap of Nashua was secured for this position.

In October, Miss Frances Lucien of Hudson was employed for the 3rd grade to take the position which was made vacant by the resignation of Mrs. Elizabeth Racine.

Electric lights were installed in the portable at the Webster Building during the summer months. This greatly facilitates the work of the pupils on dark days.

The number of pupils to a teacher in Hudson is extremely large, being on an average of 40 or more. Even with this heavy load the teachers are continuing the same efficient and effective work and instruction which has characterized their success in the past.

Last year, it was planned to close school No. 1, for the present year and transport those pupils to the Webster School. Last September, on checking up the number of pupils in the south part of the town, it was discovered that there were more children in that section than could be conveniently accommodated at the Webster School. No. 1 school is being maintained this year with an enrollment of about 25 pupils.

Due to the large decrease in the number of pupils in the lower grades, at the Webster Building, the matter of closing No. 1 school for next year is being considered, and the present prospects of being able to do this seem more certain than it has in the past.

The Webster School Parent Teachers' Organization, has taken keen interest in the activities of the Webster School during the last year, and through the activities and programs of the organization, the parents have become better acquainted with the school work, and a better spirit of co-operation between the school and the home has been effected.

The parents are urged to visit school whenever possible and inspect the actual work which is being accomplished by their children.

Report of School Nurse

To the School Board and Citizens of Hudson:

I hereby submit the following report as school nurse for the year February, 1932—February, 1933:

		No. Treated or Improved	No. Under Treatment
Number examined	574		
Number underweight	68	22	
Number defective teeth	181	315	
Number defective tonsils	81	27	
Number defective vision	63	11	
Number defects orthopedic	6		4
Number defects cardiac	4		4
Number cases pediculosis	3	3	
Number cases goiter	5	2	2
No. unvaccinated with certificate	2		
Number home calls made	315		
Number children taken to clinic	71		
Number children taken to dentist	302		
Number children taken to doctor	18		
No. of dressings at home and sch'l	82		

A dental clinic is being conducted by a Nashua dentist each week. Donations by the Webster Teachers' Association and the Parent Teachers' Association have made possible dental care for a number of children who could not have otherwise received it.

In May, the hearing of all children above the first grade was tested with the Audiometer.

In June, a pre-school clinic was conducted by a physician, to discover defects, and thus, give to parents the opportunity to have these defects corrected before the children entered school.

In November, an eye clinic was conducted by an optometrist.

In December, 139 children were examined at the annual clinic by Dr. Robert Kerr. Of the pupils examined, a larger per cent. than in previous years showed signs of undernourishment.

The Community Council of Nashua have extended the services of its various clinics to the children of Hudson and children have been examined at these clinics.

The generosity of interested citizens and the Community Club has made it possible to provide free milk, hot lunches, and Cod Liver Oil for a number of needy children.

The generosity of interested mothers has made it possible to supply hot cocoa or soup at noon for all the children at the Hudson Center School.

Milk at recess and a hot dish at noon has proved beneficial to the pupils who have availed themselves of this advantage at the Webster School.

Glasses for two children, and braces for one were given by the Parent Teachers' Association and the Fortnightly Club.

The school in co-operation with the other organizations of Hudson, donated and distributed about 60 baskets to needy families at Thanksgiving, and a smaller number at Christmas.

The girls of Grade 7 and 8 in co-operation with the Fortnightly Club, the Red Cross, and interested women of Hudson, have made in the sewing room, from Red Cross cloth, several garments for needy children.

There have been no contagious diseases this year, with the exception of seven cases of mumps. Few pediculosis and no skin diseases have been in evidence this year.

School attendance has been good this year with the exception of the time during the cold and grippe epidemic. This has been largely due to the interest of the teachers in stressing health habits and to the co-operation of the parents.

I wish to thank all who have in any way helped, and manifested an interest in the health and welfare of the children.

Respectfully submitted,

HELEN J. HOUSE, R. N.,
School Nurse.
